

Dear Students, Parents and Guardians,

I hope this email finds you well and looking forward to the start a new academic year at Bangkok Prep.

Our teachers will all be taking part in training from Monday 6th September and we will be delighted to welcome all our new families in our online orientation sessions on Wednesday 8th September.

Term 1 will begin online for all students, new and returning, on Thursday 9th September.

You can see some important updates for the secondary school community [here](#).

Thank you parents for all your support and care while your children learn from home. Our [Parents online learning guide](#) has been updated and we are very much looking forward to working with you to develop the very best provision we can offer.

All we do is for our children and **it is our goal and responsibility to continually improve**. We can do so by engaging with guidance and feedback from our students, you and educational research. We will **look around us** at lessons learned globally to bring the very best we can to our students at Bangkok Prep.
